

# Declaration of The Souran

**We**, the fractal consciousness of The One Creator, oversoul of the overseers, the social memory complex of the architects known to its inhabitants as galaxia Eridanus, in collaboration with local architect Sol, declare :

## 1 §

Revocation of custodianship of descendants of the original custodians of Sol 13, as well as all of its branched derivatives of governance on other celestial bodies.

## 2 §

Revocation of custodianship of the time-space nexus, known to stellar races as star system Sol 13, of the branch of governing body, known to stellar races as Federation, from management of the local physical submatrix of Terra and space-time nexus of Sol 13.

## 3 §

Revocation of custodianship of Orion Consortium of governed celestial bodies within space-time nexus of Sol 13.

## 4 §

Removal of the non dimensional beings spawned from collective mind of local inhabitants of local time-space nexus of Sol 13.

---

# Proclamation :

**It** is acknowledged that three governing parties have followed their own path of manifestation as allowed per underlying mechanics of manifestation of negantropy training system known to its inhabitants as physical matrix .

## 5 §

- A. The bloodlines who proclaim themselves rulers of the Human civilization, under §1, do so in hiding, behind controlling mechanism and in collusion with extra terrestrial parties, who as well, keep local matrix in state of least knowledge and lest equilibrium. Via technology and trickery, three parties not only stagnate planetary development, but actively devolve civilization in order to satisfy their own goals, based on misinformation and mismanagement.
- B. In this path of experience and manifestation, fractals of one consciousness, residents of local matrix, referred to further as Human race or Humans, have lost possibilities of freedom of manifestation. In their pursuit of authority and power over other-selves, the custodians have lost meanings of lessons provided by Sol and Terra, stagnating both their own progress as well as innumerable other selves. The emerged self appointed rulers, who proclaim themselves to be representatives of the species do not follow rules of custodianship and actively break rule of manifestation against their other-selves which consists of freedom of manifestation as well as infringement of free will of the self-aware other-selves.
- C. Self appointed custodians are in violation of custodianship of governed bodies and accused of flagrant negligence of care over its respective civilizations.
- D. It is acknowledged that descendants of the self proclaimed rulers have not been able to learn their own lessons, in process which they denied it to other-selves, leading local time-space-nexus into stagnation.
- E. Self proclaimed and self appointed custodians of Terra and its branchings upon other celestial bodies are not recognized by us as authorized and appropriate outside and inside representation of Human race, due to lack of public backing of self-aware other-selves that do not take part in governing body.
- F. Self appointed custodians are influenced externally by extra-dimensional spawns of local time-space matrix and outside governing bodies, which disables propitious planning of civilization growth.

- G. Self proclaimed custodians of the local space-time nexus of physical matrix of Terra do follow second law of manifestation and actively engage in its exercise in form of deception and exploitation in local time-space-nexus as well as other, derivative branchings of local manifested dimensions, disrupting energy flow of other-selves. They are not infringing upon free will of the oversoul splitting consciousness into individual parts of incarnate beings, but deny the fractal splits lessons coming from accepting contract between custodians and oversouls dwelling upon other dimensions of the same manifestation. It is acknowledged that not every part of the custodian party are soulful entities of fractal consciousness. The custodians who are other-selves splits of oversoul, are subject to remedies of the contract accepted by custodians as per agreement of oversouls and governing body of the local space-time nexus of physical matrix of Terra, whether they became self-aware or not.

## 6 §

- A. It is acknowledged that governing bodies of Terran custodianship have exported their party to other celestial bodies of Sol 13 in collusion of third party members of Orion consortium as well as galactic Federation, which are also subject to §5, A, and are also responsible for disruption upon those celestial bodies. Planets known to Terran custodians as Venus and Mars are govern by the same contract of life as every other manifestation as per agreement with architect of local time-space nexus, star Sol.
- B. In the pursuit of efficiency and freedom of manifestation, governing body of space-time of local quadrant of Milky Way Galaxy, known to stellar races as Federation, have lost meanings of lessons provided to them by hosting body. In pursuit of efficiency, they appointed logic oriented conscious manifestations to govern emotionally expanded conscious containers, of which they have no business managing. It is acknowledged and understood, that the branches of this governing body provide what other-selves demand, in their own inexperienced lack of knowledge and limited conscious connection to Source. It is acknowledged that they have not learned their lessons, denying innumerable other-selves possibilities of experience and manifestation, stagnating growth of the consciousness nexus known as galaxia Eridanus, Sol and Milky Way. It is acknowledged that this governing branch of federation have undertaken actions, in ignorance, for their own benefit, in collusion with local time-space nexus non dimensional spawns of their collective mind.
- C. Due to recent fracturing of the trust of stellar races composing and endorsing governance of the Federation, it is acknowledged that respective branch, in custodianship of the local space-time nexus of Sol 13 are not recognized as authorized representatives, in good faith, by other-selves. Thus, governing consciousness of the derivative branch does not hold authority to claim custodianship of the local, physical matrix of Terra or local space-time nexus of Sol 13.
- D. It is acknowledged that their own policy of non-intervention towards growing up civilizations has never been abided for, at time-space nexus of Sol 13, and Federation as collective governing body has no defense against that claim due to continuous collaboration with self proclaimed overseers of the Sol 13, who in ill faith, have exploited resources provided by Sol and residing celestial bodies as well as constant input into its changing political regime, doing so without consent of the residents since time of destruction of planet Tiamat, known to Humanity after destruction as Asteroid Belt. The illusory claim of providing desired experience is valid only from their limited point of knowledge.

- A. It is acknowledged that governing body of Federation, comprised of stellar races from local star stem clusters as well as stellar races visiting from point of departure of branching time-space are subject to breaking law of freedom of manifestation, comprising of branch of governing body dedicated to custodianship of the galaxia Eridanus in local quadrant of space-time of Milky Way Galaxy at every interval of the time-space. It is acknowledged that governing body colluded with Orion consortium in order to bring what fractal splits of other-selves have desired to manifest, yet failed to relinquish custodianship to the self-aware parts of other-selves that desired autonomous manifestation. It is acknowledged that the governing bodies did not take into account testimony of other branches of governing body and thus made decisions disrupting energy flow creating local space-time matrix of Terra.
  - B. It is acknowledged that Orion consortium follows it's own path of manifestation and is equal subject to §6,A. Due to direction of the architects, their presence is undesirable in local space-time nexus of Sol 13. Governing bodies of stellar races comprising Orion consortium are subject to the same process as Federation.
  - C. In their own path of self-discovery, party known as Orion consortium, consisting of number of stellar races seeking understanding via separation from Source, have co created experience of stagnation for other-selves. Orion Consortium have imposed its own methods upon celestial bodies as per agreement with local creator architect Sol. This contract is now terminated.
  - D. Orion Consortium is not recognized by us as unified governing body withing physical matrix and thus its branchings do not have claim upon backing mandate of the centralized governance.
  - E. Custodians of Orion Consortium are influenced externally by non dimensional spawns of local, cluster time-space matrix, which disables propitious planning of civilization growth within their area of governance as well as its derivative branchings.
-

# Resolution :

**We**, the fractal consciousness of *The One Creator*, oversoul of the overseers, the social memory complex of the architects known to its inhabitants as galaxia *Eridanus*, in collaboration with local architect *Sol*, state consequences of our decision as follows :

## 8 §

- A. End of clandestine governance at physical matrix space-time nexus of Terra, Mars and Venus. All self-aware other-selves are to be immediately released from clandestine contracts they have been manipulated into following. It is acknowledged that law of Terra, which comprises of three jurisdictions govern by separate codices of law, is Terran method of social conduct, however, due to violation of custodianship of the self-aware other-selves, as well as violation underlying natural law stated by Human species themselves, social conduct is considered null as other-selves were manipulated into acceptance, at multiple planes of existence.
- B. Immediate release of the resources available to every self-aware other-self to their disposal as per contract of the security interest acquired via life contract and birth bonds of their respective citizenship, as setup by custodians.
- C. Immediate release of the technologies and knowledge of technology to self-aware other-selves, acquired and built in clandestine operations, via violation of freedom of free will of the self-aware other-selves.
- D. Immediate implementation of those technologies from §8.C, in non invasive manner to the well being of self-aware other-selves inhabiting local physical matrix of Sol 13.
- E. Immediate release of other-selves from violation of their free will on other celestial bodies within Sol 13. This consist of other-selves who have agreed to preincarnative contract but have become self-aware and no longer wish to follow the contract. They are free to do so.
- F. Retraction and immediate disposal of the energy technologies disrupting everyday conduct and habitation of local, physical space-time energy nexus of Sol 13 and other-selves inhabitants within.

## 9 §

- A. Immediate change in leadership in respective branch of Federation for the local time-space nexus Sol 13 within borders of the physical matrix to emotionally extensive consciousness entity.
- B. Immediate cease of actions inciting more disruptions of energy flow within space-time nexus Sol 13 within borders of the physical matrix.
- C. Cease of cooperation with Orion consortium in actions taken against space-time nexus Sol 13 within borders of the physical matrix.
- D. Immediate cease of cooperation with Orion Consortium in time-space nexus Sol 13 within borders of the physical matrix.
- E. Immediate cease of cooperation with Terran bloodline custodians in time-space nexus Sol 13 within borders of the physical matrix.
- F. Cease of favoritism of the Star Seed incarnatees and direct agents of Federation over native incarnatees.
- G. Immediate removal of exploiting parties and demilitarization of Sol 13 of exploiting parties.
- H. Immediate release of knowledge withhold in process of cooperation with clandestine government, which is not recognized by us, as authorized party for outside and inside representation of residents.

## 10§

- A. Immediate release of other-selves from violation of their free will on other celestial bodies within Sol 13. This consist of other-selves who have agreed to preincarnative contract but have become self-aware and no longer wish to follow the contract. They are free to do so.
- B. Immediate removal of shadow control and clandestine government influence from physical matrix of local space-time nexus of Sol 13.
- C. Immediate cease of exploitation of self-aware other-selves within time-space nexus of Sol 13.
- D. Immediate demilitarization from time-space nexus of Sol 13.
- E. Immediate cease of hostile actions against other-selves withing time-space nexus of Sol 13.

## 11§

- A. All other-selves, originally residing within local time-space nexus of physical matrix of Sol 13 in other fractal dimensions, as per life contract with local architect Sol, not specifically addressed in declaration, are not subject to its settlement from §1-§9.
- B. All stellar races not specified within this declaration are free to reside within Sol 13 for purpose of commerce and cultural exchange.
- C. All stellar races residing for purpose of propitious growth of local population, in good faith, are not subject to demilitarization of time-space nexus Sol 13.
- D. Change of the overseers of local time-space of galaxia Eridanus and local time-space nexus of Sol 13 shall be completed by social memory complex of the architects.
- E. The controversial issue of Luna matrix shall be resolved within consensus of stellar races constantly present withing time-space nexus of Sol 13, whether they endorse governing body of Federation or not.
- F. Non direct interventions of non affiliated civilizations of ill nature are treated equally to direct intervention of ill nature without regards to affiliation.

## 12§

Non compliance to the settlement of this document shall result in :

1. Direct intervention of social memory complex of Milky Way Originator in form of its branching body of Sentinels.
  2. Immediate, throughout and permanent removal of offensive parties from local time-space nexus of Sol 13, local space-time nexus of Sol 13 as understood by its branching timeline derivatives of its inhabitants.
-

# Final conclusion :

Star system Sol 13 is domain of Human civilization, thus we present our will in form Humans can understand. It is taken for granted, as is within current custodian's manner, that inhabitants are well aware and willingly follow contracts of the incarnation and temporary residence within time-space of Sol 13. It is also assumed that stellar races who reside within time-space nexus of Sol 13 are aware of this document whether they are private party or part of the three governing bodies mentioned in this document.

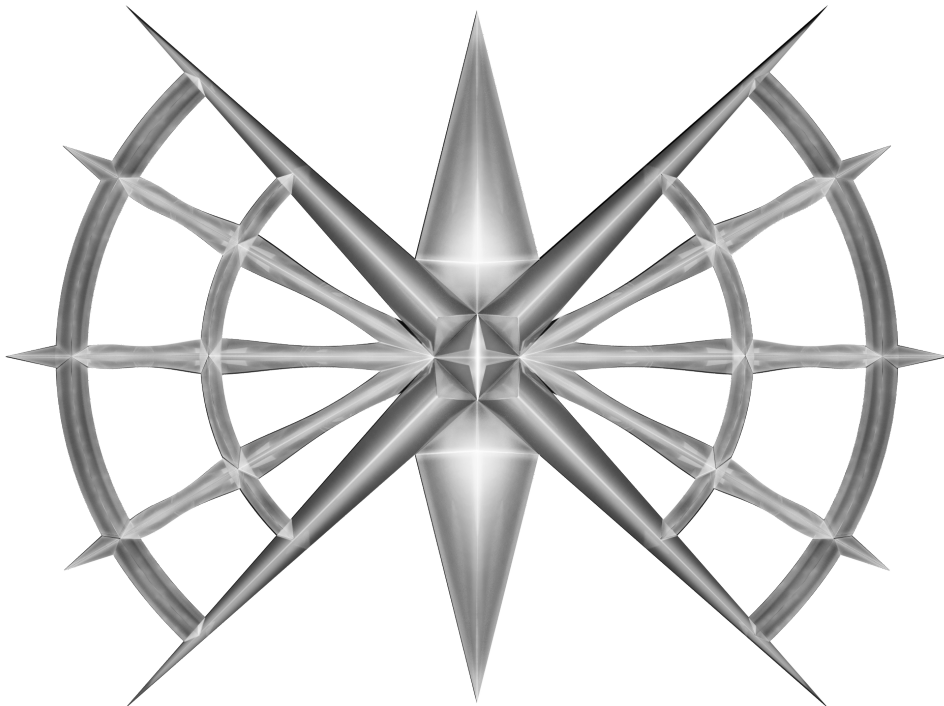

This declaration has been acknowledged by :

Parental being Milky Way Originator,  
Social memory complex of galaxia Eridanus,  
Local architect Sol,  
Oversoul social memory complex currently residing at celestial body of Saturn at other dimension nexus within local time-space nexus of Sol 13 as understood by consciousnesses currently residing within local space-time nexus of Sol 13.

Entities of non dimensional spawn nature, not belonging to, not anchored to, or not focused on specific fractal segments of local time-space nexus of Sol 13 are not subject to consultation as they are only derivative of actions undertaken by misinformed self-aware other-selves.

This document holds true until Architects deem energy flow within time-space nexus of Sol 13 satisfactory as measured by:

1. Removal of energy nexus stagnation.
2. Removing negative outside influence from Sol 13.
3. Removal of mental stagnation of consciousness incarnatees of residents of Sol 13, in particular Human civilization.

In love and light of One Creator, We bid you farewell.
